.Net Core	★★★★★
MS SQL	★★★★★
Networking	★★★★★
Problem Solving	★★★★★
Critical Thinking	★★★★★

An enthusiastic computer science student working on a Bachelor of Science in Information Technology Programming seeks real-world experience as a .Net Developer. Possess programming skills, especially a strong foundation in data structures, networks, algorithms, and a programming language like C#, VB.net, and, to a lesser extent, C++. As a programming student, I aim to increase my development abilities while also broadening my knowledge via hands-on experience. Aside from that, I am knowledgeable and resourceful about common software applications and research techniques, and I am willing to learn new abilities in order to positively contribute.

Education

2020-10 - present	Bachelor Of Science In Information Technology, Programming <i>University Of Information And Technology Management, Rzeszow</i>
2018-01 - 2020-11	A level, A level <i>Gateway High School Speciss College, Harare</i> Business: C Accounting: C Computer Science: D As Mathematics: E
2017-01 - 2017-10	O level, O Level <i>Gateway High School, Harare</i> Physical science: B Computer Science: B Accounting: B Mathematics: B Business Studies: C English: C

Projects

2020-04 - 2020-06	Student <i>Battery Charger Alerter</i> <ul style="list-style-type: none">This program was designed to detect when the computer's battery achieves 100 percent charge in order to avoid overcharging and increase the battery life of the laptop.

Polish	★★★★★

Hobby

- Playing chess
- Reading books
- Coding - increasing my programming abilities in the desired programming languages.
- Networking with others
- Learning new abilities such as data analysis, social media marketing.
- Making use of computer programs and abilities to develop or assist others

- When the laptop battery achieves 100 percent charge, an alarm sounds to alert the user to unplug from the charger.
- The power is informed to the user at 25% intervals.
- Voice alerts the user whether the battery is nearly full or dangerously low.

2019-02
- 2019-05

Student

Voice Recognition Software

- Created a speech recognition system that receives a restricted set of instructions and responds with the appropriate actions.
- There is a text-to-speech box and a button integrated with the event of speech difficulties.
- It contains around 100 beginning instructions and its own music player if you wish to listen to music.
- Depending on the location of the hard disk, has the option of picking data from the C drive or the D drive.

Courses

2021-07

Cisco : Introduction to Cybersecurity

- Explaining the global consequences of cyber risks to people
- Identifying the points at which networks are vulnerable to attack
- Examining the effects of cyber-attacks on industry
- How to Protect Yourself Against Hacker Cyberattacks

2021-03

Cisco : CCNAv7: Introduction to Networks

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.
